SOFTWARE DEVELOPER

I am a recent graduate with a Bachelor's degree in Information Technology, actively seeking a challenging position in software development. I excel in back-end technologies and am proficient in front-end development. I am flexible and capable of working on both ends of a project. With strong problem-solving skills, logical thinking, and a passion for continuous learning, I am eager to contribute to a dynamic development team.

SKILLS

Frontend	NextJs, ReactJs, VueJs	**Backend**	Go(fiber), NodeJs, Laravel, NestJs, .Net
Programming Language	HTML, CSS, JavaScript, TypeScript, PHP, C#	**Database**	AWS S3, MongoDB, PostgreSQL, phpMyAdmin
Other	Docker, Postman, Git		

WORK EXPERIENCE

Toyota Material Handling Warehouse Solution (Thailand)   **April - June 2023**
Intern / Programmer

Accomplishments:

Ticketing System Development (Solo Project)

- Developed a web-based system for issue reporting and resolution tracking using php, html, css, javascript
- Implemented user authentication, ticket submission, tracking, and admin management features.

Web-Based API Documentation

- Created comprehensive API documentation with endpoint descriptions, request/response examples, and error handling.
- Used tools like Swagger and Postman to ensure accessibility and usability for developers.

Server Room Inspection and Maintenance

- Conducted regular inspections and maintenance of server hardware and network infrastructure.
- Monitored environmental conditions and ensured compliance with security protocols.

CERTIFICATE

The Asia Undergraduate Conference on Computing   **Feb 2024 - Present**
Received an award for presenting a researcharticle as a poster. Good level (GOOD)

Information Technology Passport Examination (IP)   **Oct 2023 - Present**
Certification exam designed to test foundational knowledge in information technology, including basic IT concepts, systems, and practices. It covers areas such as computer systems, networks, security, software development, and data management, providing a credential that demonstrates a basic understanding of IT principles.

EDUCATION

Burapha University
Information Technology | GPA 3.13

Mahannaparam
Math - Science | GPA 3.16
